CAREER OBJECTIVE

- *As a passionate Full Stack Developer, I love to work in a challenging, creative environment and stimulate the technical and I am very strong at core technologies, frameworks, and languages. I can work on relatively complex projects/tasks with relative ease.*

TECHNICAL SKILLS

Back-end   :   JavaScript, Node.js, Express.js, python

Front-end   :   HTML, CSS, React.js, Redux, Bootstrap, MUI

Data Base   :   MySQL, Mongo, Firebase, PostgreSQL

Version control :   Git, firebase

ACADEMIC PROFILE

COURSE	NAME OF THE INSTITUTE	YEAR OF PASSING	MARKS %
BSC CS	PSG College of Arts and Science, Coimbatore	2021	74
MBA PM	Alagappa University, Karaikudi	2024	N/A

USHJA (United States Hunter Jumper Association)

Have the opportunity to work in the core team of USHJA to lay the foundation for Upstream/Downstream with USEF and as a senior dev help the organization recover $500,000 from my report. Have processed tons of migrated data and monthly revenue reports for the organization. With the help of Redux have implemented multiple features for both Admin and Member portal and also have implemented the auto-renewal feature in Member portal

Equrent

Equrent is a rental E-commerce site built using Node , React-Redux and Mongo db. This full stack application works withsmooth UI which makes the user experience better

HOTSTAR CLONE

Its exact clone of Disney+ Hotstar built in React.js as Front-end and firebase as backend and Database. Got the inspiration as full time binge watcher and Marvel fan to build this cool app

MYDIVES

Mydives is a resort booking website for a Maldives resort. It's the first project I work in using React.js as Front-end and by Using HTML5, CSS3, Bootstrap and JavaScript

NARUTO-API

As Web Developer everyone will come across PokeApi just alike that Naruto-Api is plan to built using React as Front-end and Node as Backend for the Database we are using the Mongo DB Atlas

PERSONAL STRENGTH

- Self-confidence and willing to learn.
- Team player.
- Leadership
- Spot decision and creativity
